

PURPLE DAY!

Join us and celebrate on

Thursday, March 23, 2017*

Wear purple to support those living with epilepsy.

Why wear PURPLE?! This one simple act will help build awareness and show your support for the 1 in 26 people who will live with epilepsy. Awareness brings funding. Funding brings more research, better treatments and hopefully a cure.

*We are celebrating early this year as Purple Day, March 26, falls on a Sunday and during spring break.
